May 15, 1957

Dear John

As you probably know
Sheldon Reaume died recently (suicide).

Betty Anderson who is also in Law Section
told me that there are no money for a burial.

We are collecting in our section and some of
the oth sections have also initiated private collec-
tion. Betty has contacted Tatum and I promised
to contact you. Since the cost is less than \$200
small contributions will make themselves felt. If you
write a check write it to Elisabeth P. Anderson,
National Cancer Inst., Bethesda, Md.

Let me leave this depressing topic and go
to other topics. Kiyoshi is writing the
experiments on the effect of galactose on the
mutants together. — If I get money to Japan
I would like very much to lecture at U. of Wisconsin.
As the matter of fact I need money to pay my
trip to the West coast. I shall write you later.

I am trying to go around the globe. Lindström has in-
vited me to Copenhagen. Société de Chimie Biologique has
invited me to speak in Paris — so it all adds up.

Barb — I got finally a son — named Nick
When are you coming here?

Best regards to you & Esther
Sincerely,
Herman.
